DESIGN&LIVING

this... Products Featured in August Real Living Magazine

I know we are wearing out the email welcome this month, but we're just over the moon at the great feature that shows of our ceramics and French milk bottle in this month's Real Living Magazine.

The article features some great shots of our Flinders, and Graphis Ceramics and our Ferme milk bottle too.

The article "Coolest Kitchens: Looks that will last beautifully combines our monochromatic pallet with rich wooden items against dark and moody wall colours and bright white shelves. I think its time to repaint the showroom!!

You will also find a good selection of housedoctor products including the industrial styled Laundry caddy.

We love real living! Thanks guys.

Best wishes,
Helen Gill and David Hills
